

if

If life could be easier
I would have more of what I want
Enjoy all the things I love
And none of what I don't

If the economy was better
More cash would come my way
My accounts would look better
The pain would go away

If Lady Luck would visit
Good fortune shine on me
I could get what I deserve
Be all that I can be

If is just a question
The blame pointed elsewhere
Excuses and denial
In fact it's just not fair!

If I am to be successful
And have all I desire
At first I simply look inside
Pour fuel upon the fire

If I believe in myself
Be what I need to be
If someone else can do it
Can someone else be me?

If I'm prepared to take the action
Climb mountains on the way
Follow through, don't give up
Let nothing get in my way

If success is what I am after
I must take responsibility
Everything that happens
Is accountable to me

I can have what I want
Live everything I dream
Feel happy and contented
Be that cat that got the cream

If everything was easy
Just handed on a plate
Would success be worth it?
Would life be so great?

If life is but a journey
I will plan it carefully
Live for every moment
Be what I can be

If I just stay focussed
Each day commit and do
Great things will start to happen
They're happening to you

If it is really worth it
What difference could I make
Stand up and just be counted
Be more and don't be fake

If is just a question
Success is by design
I know what I am doing
Things will be just fine...

IF *I take control*
Target on the result
Success will come my way
*Success is all **MY** fault*
